SUMMARY

Creative and detail-oriented UI Designer with 1+ years of professional experience designing engaging, responsive, and user-friendly interfaces for web and mobile applications. Skilled in Figma, Sketch, Adobe Photoshop, Canva, wireframing, prototyping, interaction design, visual design, responsive design, design systems, usability testing, and accessibility. Experienced in transforming product requirements, wireframes, and user flows into high-fidelity UI designs and interactive prototypes. Proficient in leveraging AI-assisted design tools including Claude, ChatGPT, Google Gemini AI, NotebookLM, Google Stitch, Julius AI, and Claude + n8n automation workflows to accelerate Figma design creation, ideation, wireframing, and content generation. Strong ability to collaborate with cross-functional teams, stakeholders, and developers to support accurate design implementation and maintain visual consistency across digital products.

EDUCATION

B.Tech, Computer Science and Engineering — Vaageswari College of Engineering, Karimnagar

Jawaharlal Nehru Technological University

Intermediate (MPC) — Sri Gayatri Junior College, Karimnagar

Telangana Board of Intermediate Education

Secondary School Education — St. Paul's High School, Karimnagar

EXPERIENCE

UI/UX Designer **June 2025 – Present**
InTechNative *Noida, India*

- Design intuitive, engaging, and user-friendly interfaces for web and mobile applications using Figma.
- Transform product requirements and user needs into high-fidelity UI designs, responsive layouts, and interactive prototypes.
- Collaborate with cross-functional teams to refine design solutions and support product requirements.
- Apply usability, accessibility, visual design, and design system best practices to maintain consistency across digital products.
- Work with stakeholders to review designs, incorporate feedback, and iterate on user interface solutions.
- Prepare designs and prototypes to support development handoff and accurate implementation.
- Use AI-assisted workflows with Claude, ChatGPT, Google Gemini AI, NotebookLM, Google Stitch, and Julius AI to accelerate Figma design ideation, wireframing, iteration, and content generation.
- Integrate Claude with n8n automation workflows to streamline repetitive design and content-generation tasks within the Figma design process.

UI/UX Designer Intern **April 2025 – June 2025**
InTechNative *Noida, India*

- Created wireframes, user flows, prototypes, and high-fidelity UI designs based on project requirements.
- Supported senior designers in usability reviews and refinement of interaction patterns.
- Assisted with visual design improvements and UI iterations based on design feedback.
- Contributed to user-centered design activities and development-ready design deliverables.

UI/UX Designer **April 2024 – February 2025**
Digital Foxy *Hyderabad, India*

- Designed modern, user-centered interfaces for web and mobile applications using Figma.
- Created wireframes, interactive prototypes, user flows, and high-fidelity visual designs.
- Applied responsive design principles to create consistent user experiences across different screen sizes.
- Collaborated with stakeholders to gather requirements, review designs, and incorporate feedback into design iterations.
- Created supporting visual assets, mockups, and marketing collateral using Adobe Photoshop and Canva.
- Applied visual design principles to improve usability, consistency, and overall interface quality.

PROJECTS

JobExcello.com — Hiring & Job Search Platform

- Designed the end-to-end UI/UX for an AI-powered hiring and job search platform connecting job seekers and recruiters.
- Created user flows, wireframes, high-fidelity UI screens, and interactive prototypes in Figma.
- Designed interfaces for intelligent job matching and automated recruitment workflows.
- Used Claude, ChatGPT, Google Gemini AI, and Google Stitch to accelerate Figma design ideation, wireframing, and content generation.
- Focused on intuitive navigation, clear information hierarchy, responsive layouts, and user-friendly interaction patterns.

ResumeMitra.com — Resume Creator & ATS Score Checker

- Designed UI/UX for an AI-powered resume-building and career platform focused on ATS-friendly resume creation.
- Designed intelligent optimization flows, real-time resume scoring interfaces, and professional resume templates.
- Created high-fidelity UI designs and supporting visual assets using Figma and Canva.
- Applied NotebookLM and Julius AI for research synthesis and data-driven content decisions supporting design work.
- Focused on usability, information hierarchy, accessibility, and clear presentation of resume scoring information.

TECHNICAL SKILLS

Design: UI Design, Visual Design, Web Design, Mobile App Design, Responsive Design, User-Centered Design, Interaction Design, Design Systems, Information Architecture

Process: User Flows, Wireframing, Prototyping, High-Fidelity UI Design, Usability Testing, Accessibility, Design Reviews, Stakeholder Collaboration, Developer Handoff, Brand Consistency, Visual Consistency

Design Tools: Figma, Sketch, Adobe Photoshop, Canva, Adobe Lightroom

AI Design Tools: Claude, ChatGPT, Google Gemini AI, NotebookLM, Google Stitch, Julius AI, Claude + n8n (AI Workflow Automation)

AI-Assisted Workflows: AI-Assisted Wireframing, AI-Assisted Prototyping, AI-Assisted Content Generation, AI-Assisted Figma Design Automation

CERTIFICATIONS

Professional Certificate in UX/UI Design — Star Design Institute — October 2024 — Credential ID: IH07100637
